ORGANISATION Structure

OUR services

SOE BOBKA Surefood & Associates Nigeria Limited provides services that take into account the current trends in urbanization and consider the needs of future generations. We help communities and businesses connect, whilst respecting social, environmental and climate concerns.

Managing costs and risks, we offer solutions that rise to the complex challenges inherent in emerging economies. We provide technical expertise, coupled with strategic consulting services that are specifically tailored to maximize effectiveness and efficiency, delivering a quality product on time and within the budget.

We are interventionist and development driven organization in the emerging market of the food agriculture sector with our project FOOBANKING NIGERIA

WHAT we do

- Food Banking Nigeria
- Construction of Farms and Agro-allied Projects
- Estate Development / Low cost Housing using Local Innovation
- Climate Resilience Project
- Dam construction, Water Engineering Projects
- Health and Wellness

- Electrical Installation
- Renewable energy and Solar Installation
- Rural Electrification

FOOBANKING NIGERIA

The Expected Outcome of the Project

- Increased and coordinated stakeholder s ' participation in decision-making and the implementation of schemes in relation to PBS's key objectives;
- Creating strong linkages and partnerships between State and Local governments, NGOs, CBOs ,private and development sectors in the provision of affordable and sensible housing to persons that are in need of Food and Health Services in Nigeria; their own through the support of the project,
- Providing opportunities for employment generation, poverty reduction and wealth creation; and, Encouraging the rural poor and the low income earners to form co-operatives and credit unions that would translate to their owning farms and houses of ther own through the support of the project, and a lot more.

WHY the project now?

The downturn of the Nigeria's African economy resulting from poor and weak socio-economic policies of successive governments in Nigeria and Africa and the high and rising levels of youth unemployment and poverty are the issues that make the project most significant.

The general picture of food security in Nigeria is caused for a variety of reasons, including poor policies implementation of successive governments is deplorable.

The net result has been heavy over-crowding of cities and towns, and the overloading of the urban infrastructure, particularly in the federal capital territory, Abuja.

SOEBOBKA Surefood & Associate is therefore poised to build new forms and Agro Allied Infrastructure, in order to reduce the incidences of poverty and current socio-political fragmentations in the polity.

Reality has also shown that a large chunk of the Nigeria's populace have no food that they can call their own, and when they fall sick; they are barely able to survive. The nation is currently estimated to have over 77 million in food and health insecurity in Nigeria.

Currently in Nigeria, gory spectacles abound in urban and rural communities of what appears to be called peoples' hunger. Many Nigerians are in living very poorly conditioned homes with low sanitation and / or no sanitation facilities at all.

OUR Objectives

To open up rural forms and agro-allied facilities to markets to build new villages, towns, and cities from the existing ones in order to reduce the incidences of poverty and current socio-political fragmentations in the polity;

To promote and socialize the use of ICT and Marketing in order to bit-down cost of food and drugs in Nigeria;

To encourage the upgrading and /or modernization of farming or using designs that are based on traditional and local construction systems so as to ensure greater safety, comfort, reliability and ease of maintenance; for the urban or rural poor

To collaborate with the International Development Organizations , NGOs, governments and financial institutions (banks) in the delivery of affordable safe food and drugs in Nigeria amongst other services;

To establish a social coperative online and realtime for the benefit of members;

To facilitate the establishment of farming co-operatives and credit unions/clubs in the rural and urban areas in Nigeria;

To provide training and build the capacities of young graduates engineers and artisans in engineering practices in order to improve their skills in general engineering works and in the applications of local raw materials in building construction ;

To persuade the three tiers of the Nigerian Government to provide political the needed support and provide the enabling environment for the project, both in words and actions, in order to provide better shelters for those who are shelterless or those who lack adequate shelter;

To provide incentives which would allow the less privileged to have access to better food, durgs and shelters, including but not limited to land, loans/micro credits and building materials at highly subsidized rates; and ,

Initiate course of action and giving top priority to those social infrastructure projects that properly reflect the government's aims and objectives; but for which lacks funds.

LITERATURE

on our
services

Pre-Construction Services

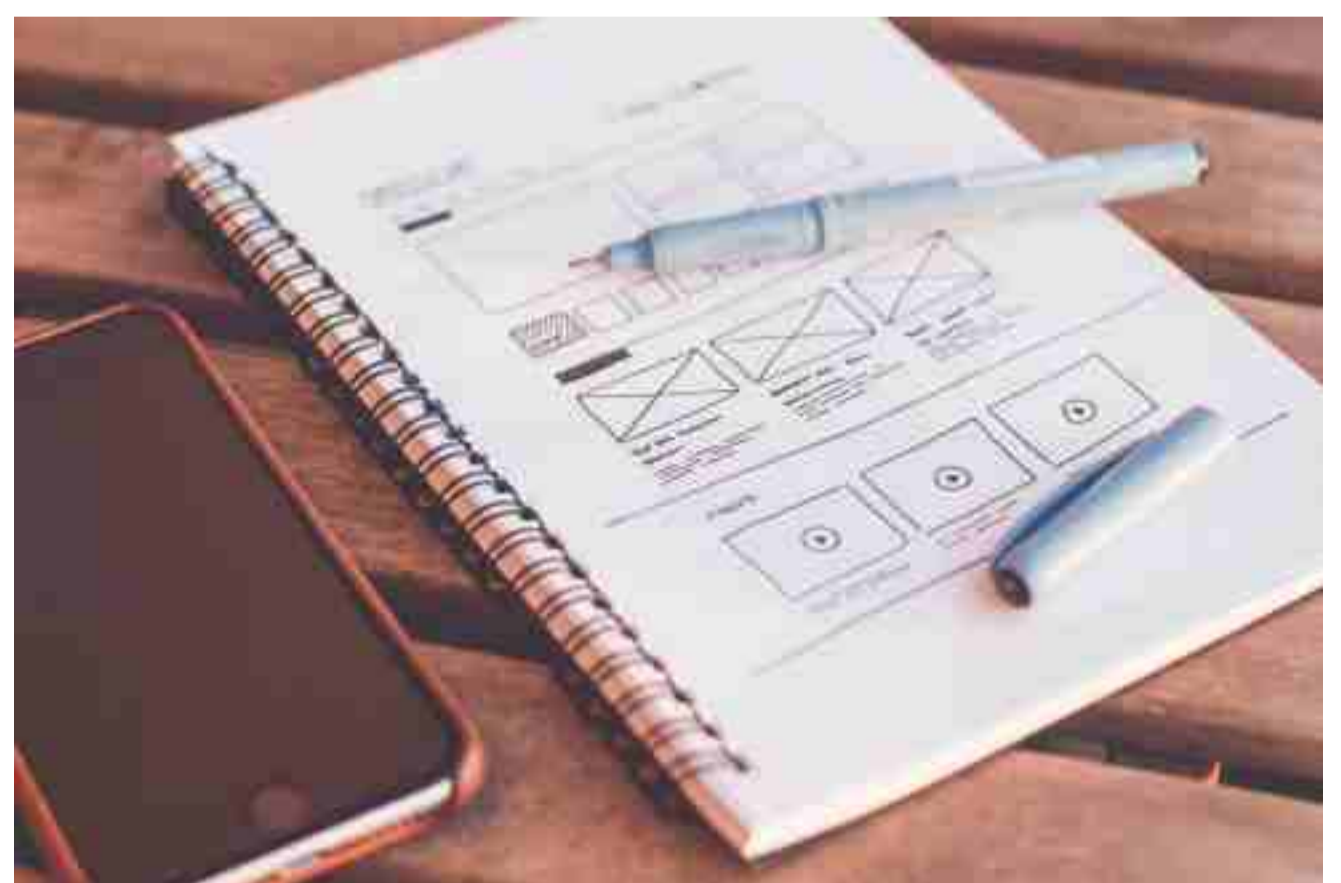

Through clarification and commitment to project team goals, SOEBOBKAZ SUREFOOD AND ASSOCIATES provides the project client and architect with control of the project's schedule, budget and quality. This is accomplished with studies, expert advice in Agro-allied Health wellness services.

Program Management

When a client hires SOEBOBKAZ SUREFOOD AND ASSOCIATES for program management, he essentially gets total quality management plus. The 'plus' can vary widely depending on what kind of building is being constructed. Program management involves overseeing much more than the construction of a facility. SOEBOBKAZ SUREFOOD AND ASSOCIATES not only manages the construction site, it manages all the equipment that goes inside the project. This involves considerably more work.

Design Services

In design/build projects, clients contract a single entity for both design and construction, often through a consortium or joint venture. This integrated approach streamlines project delivery by combining planning, engineering design, and construction responsibilities. The SOEBOBKAZ SUREFOOD AND ASSOCIATES team offers a wide range of services, ensuring coordination among planners, engineers, and builders to deliver quality results at competitive prices. SOEBOBKAZ SUREFOOD AND ASSOCIATES manages all building elements, coordinating with architects and subcontractors, and is responsible for timely, budget-conscious construction. This method allows for design and construction overlap, leading to schedule savings and providing clients with peace of mind.

SOLAR SYSTEM Installation

Solar Systems Installation

Our company is strongly involved in Solar System Installation with broad experience in different sectors of the Nigerian economy. With the sound resources base at our disposal, we have acquired the necessary technical capability which has enabled us to undertake major projects, Drilling of Borehole and Construction works within other sub-sectors of the economy.

Our Services

Our Services on Solar systems are as follows;

- SolarOff Grid Power System
- Solar Thermal Water Heating
- Solar Water Pumping Systems.
- Solar Refrigerators and Freezers
- Solar Mobile and Laptop Chargers
- Solar System components: such as Solar Panels, Solar Batteries, Solar Inverters, Solar Charge Controllers and SolarAccessories.

BORCHOLE Drilling

Bore Hole Drilling

The bore hole drilling operation is effected in stages viz:- 15

Stage I: Geological survey.

The initial step is to undertaken a geological survey to determine the depth of the aquifer, good drinkable water and long lasting one.

This is the feasibility work which will reveal and rock basement which will enable us achieve a perfect work.

Stage II: We drill between 35-100 meters depending on the geological survey report showing the water level and basement rock. The basement rock does not pose much challenge as we have the needed equipment to ensure success of the exercise. Stage Drilling, casting, development and installation. Etc.

WORK Health & Safety

Health and Safety policy

SOEBOBKAZ SUREFOOD AND ASSOCIATES recognizes that its activities often involve Hazardous situations. We therefore, conduct these activities in a manner that will help prevent accidents, injuries and dangers to Health and wellbeing of our employees and customers. Safety is given consideration in all SOEBOBKAZ SUREFOOD AND ASSOCIATES activities. Safety features are engineered into all equipment manufactured or purchased: however, the effectiveness of the Safety and Loss Prevention Program depends largely on the knowledge and co-operation of all employees.

Employees are given instruction in safety and efficient methods of doing their jobs and in the appropriate personal protective equipment. Safety training meetings are to be held at regular intervals throughout the company.

We at SOEBOBKAZ SUREFOOD AND ASSOCIATES feel that training in safe working practices is of utmost importance and should be included in all phases of job training. We will cooperate with local and national safety regulatory agencies in a manner that will not only comply with, but also enhance development of more effective work safety practices.

COMMUNITY Affairs Policy

In keeping with our CASHES policy objectives, activities of the company in all its areas of operation are planned and executed in a manner that:

1. Will preserve the Health, Safety and Security of all members of the general public who may be affected by our operations.
2. All operations/activities will be planned in such a way as to minimize their impact on the environment of the host community.
 - i. All pollutant e.g., chemicals and allied products in use on site must be used and controlled in such a manner that all spillages and wastes are controlled within the site.
 - ii. Leakages or overflow to the adjoining environment must be avoided at all cost by using tanker to safely suck up and discharge such waste in good time into a client's approved dump site or discharge pit.
 - iii. Any environment mishap or pollution will be attended to immediately and measures taken to forestall a re-occurrence. In any case of spillage to the environment, the ASSET HOLDER will immediately be informed of the extent of pollution.

Our company will be sensitive to the needs and aspirations of the host communities as much as is reasonable.

2. The company will employ at least 40% of its workers on site from the host community. Preference will be given to the resident of the immediate community in all matters of employment on site.

ENVIRONMENTAL & INSURANCE Policy

Insurance

We recognize our responsibilities towards our employees and clients and has in place a comprehensive portfolio of insurance whereby employees are covered for personal accident and medical expenses.

PUBLIC RELATIONS POLICY

The company carries out its Public Relations activities to ensure that harmony and peace is attained to enable the company execute its project peacefully.

The company is not responsible for attending to the needs of the host community. This is the responsibility of the ASSET HOLDER, who will operate the project on completion.

Whenever such needs arises and the company could not pacify the host community enough to be allowed to carry on the execution on its project the company would have no other choice than to invite the ASSET HOLDEN to negotiate with the host community.

Environmental Policy

The management of SOE BOBKA & ASSOCIATES Nigeria Limited regards the promotion of Health Safety and Environmental Protection measures of paramount importance and as mutual objectives for Management, Staff and Communities at all level.

It is therefore the company policy to do all it can, which is reasonable to prevent personal injury, damage to property, pollution to the environment and protect everyone from foreseeable work hazard as they come in contact with our company.

1. The management has the following responsibilities:

- a) To ensure that competent persons are made to supervise all aspects of Operations.
- b) To make available all necessary safety devices and protective equipment and to ensure their use.
- c) To adequately inform employees and communities when necessary of any potential hazards arising from its operations.
- d) To provide training and instruction to enable employees

SECURITY Policy

SOE BOBKA & ASSOCIATES Nigeria Limited has it as a policy and function to manage Security Affairs as an integral part of overall CASHES programs and indeed part of the company's business so as to minimize the number related incidents for all staff, clients and the third part personnel

involved in her operations.

To ensure the implementation of this policy, the company shall engage a number of trained resource Personnel. The company shall engage a

Chief Security Officer as Middle Management Personnel who should organize, co-ordinate and implement all company's security ideals and programs.

In addition to company's unarmed security operatives, the services of a licensed and professional security shall be secured on retainer ship to act as support to the company's security system. The services of armed security agencies, such as Police and Mobile Force, shall be sought in

very rare circumstances such as riots, and armed attack.

At project locations, local security men shall be used to protect the company's equipment and facilities in a bid to a good rapport between the company and the host community.

Owing to cases of threats, piracy, armed robbery and community mob action/assault that characterized our operations in the swamp, site security may be beefed up using trained/armed security men to avert any danger and for enhanced security emergencies management.

Essential work gadgets, such as walkie-talkie, uniforms, batons, and firearms (as the case may be) shall be provided to enhance their activities.

Security items shall form part of site CASHES briefing and toolbox meetings; an incident must be reviewed in site/management CASHES meetings. Security training/drills shall be conducted for increased security awareness.

The chief security officer (report to the CASHES Manager) shall be the focal point and shall act in concert with relevant department. In the realization of a set of security objectives and targets he shall develop database for enhanced management of security.
